

Davis Training Parent and Baby, Toddler and Child Course

A 1½ to 2 hours informative talk and demonstration which leads to an attendance certificate that is valid for three years. This talk, for a group of up to twelve adults will provide the basic skills and knowledge to undertake emergency aid for babies and children. Training will be focused on emergency aid within the home and will take into account hazards and the nature and type of illness or injury the baby or child may suffer from. Parents will be trained to give treatment and to recognise when it is necessary to get expert help.

Course content:

- **Dealing with emergencies involving babies and children**
- **The A, B, C and primary survey of a baby or child**
- **Unconscious baby or child**
- **Baby or child who is not breathing normally**
- **Obstructed airway**
- **Febrile convulsions**
- **Open forum**

Cost:

£70.00 for the event, depending on location for up to twelve delegates, plus travel expenses.
